BUILDING A WORKING RELATIONSHIP WITH REFERRING PHYSICIANS

Medical Specialists have repeatedly advised SomnoMed that they prefer to work with Dentists who provide feedback to them regarding treatment of their patients. They rely on feedback to ensure their patients receive effective treatment and to determine where they will refer patients in the future.

SomnoMed strongly recommends that you provide such feedback in order to build trust and an effective ongoing relationship.

Features of the SomnoMed MAS™

The SomnoMed MAS is a highly effective solution to the problem of snoring and mild to moderate OSA. Its exceptional levels of user tolerance and treatment efficacy are backed by a large body of clinical research.

- Allows normal mouth opening
- Permits speech and drinking
- Fits fully and comfortably in mouth
- Medically researched
- Warranty against breakage
