**Model** SomnoMed understands that there are many various designs available for the treatment of sleep related bruxism. As such we are happy to customise a splint for you. Please tick Other in the below box and provide a detailed description in the comments section outlining your requirements.

<input type="checkbox"/> <b>SomnoBrux Gelb</b> Lower splint with posterior coverage connected with a Heavy metal bar lingual of the incisors. Counter model is recommended with a wax bite reflecting desired occlusal acrylic thickness.	<input type="checkbox"/> <b>SomnoBrux Michigan</b> Covers all occlusal surfaces of the dental arch. Full coverage with even contact. Can be made for the upper or lower. Please specify below. <input type="checkbox"/> Upper Splint <input type="checkbox"/> Lower Splint	<input type="checkbox"/> <b>SomnoBrux Tanner</b> Lower splint designed so that posterior teeth touch at the same time to evenly distribute the forces of clenching. The anterior is designed to allow the jaw to rub smoothly from one side to the other, with little frictional resistance.	<input type="checkbox"/> <b>Other</b> Custom designed splint. Please fill out your requirements in the comments section.
